

Ferti-Flow

2-12-0 with 2%Mn and 10%Zn

PRODUCT DESCRIPTION

Ferti-Flow is a dry seed nutritional that improves early root growth and plant vigor. By providing proper nutrition to the seed, plants can better withstand early-season cold and water stress while progressing through the vegetative growth stage. Your favorite partner in the planter box, Ferti-Flow is the right seed treatment to address the critical, early stages of crop growth to maximize yield.

Guaranteed Analysis	
Total Nitrogen (N) 1% Ammoniacal Nitrogen	2%
Available Phosphate (P ₂ O ₅)	12%
Manganese (Mn) 2% Water-Soluble Manganese (Mn)	2%
Zinc (Zn)	10%

Derived from: Monoammonium Phosphate, Manganese Sulfate, Zinc Sulfate and Zinc Oxide

PRODUCT BENEFITS

- For use on corn, cotton, wheat, alfalfa, grass and all other major row crops
- Talc and graphite replacement
- Creates longer, more developed root system
- An excellent seed-drying source; improves lubrication and flowability
- Improves resistance to early-season cold and water stress
- Improves planter performance by ensuring only a single seed is picked up and fed to the planter
- Reduces skips and seed bridging
- Easy scoop, pour and equipment options simplify applications
- Recommended for soils with locked up, unavailable phosphorus

Application Rate for All Crops:

3 oz/ unit of seed (50 lbs)
6 oz/ 100 lbs of seed
