GENERAL USE INFORMATION

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

FERTI-IRON + is most effective when plants are growing rapidly and least effective when dormant or suffering from stress.

FERTI-IRON + is compatible with most pesticides and fertilizers, with the exception of amine formulations and high phosphate fertilizers.

DO NOT use the tank mix with either amine products or high phosphate fertilizers. On plants with waxy leaf surfaces 12 oz. of a non-ionic wetting agent like SmartLine™ Supr-Spred™, per 100 gals. "finished" spray will aid leaf penetration.
