

BLACKOUT DRY

ALL NATURAL SOIL CONDITIONER

**SOIL AMENDING
INGREDIENT:
HUMATE 100%**

**NON-PLANT FOOD
INGREDIENT:
HUMIC ACID 50%**

DIRECTIONS FOR USE

USE RATES

Apply 100-250 lbs. per acre per season. **BLACKOUT DRY** may be applied as a pre-plant, broadcast or as a side-dress application.

BLACKOUT DRY is best used when applied in conjunction with an adequate fertility program.

BLACKOUT DRY is a natural soil conditioner that acts as a soil microbial stimulator as well as a natural chelator for minor nutrients.

BLACKOUT DRY is a unique granular soil amendment that contains humic acids, fulvic acids, and carbon.

BLACKOUT DRY helps to:

- Enhance the availability and uptake of nutrients
- Stimulate root growth
- Improve soil structure
- Stimulate soil microorganisms
- Buffer salts in the soil
- Minimize plant stress
- Increase water-holding capacity in soils

WARNING

KEEP OUT OF REACH OF CHILDREN

May be harmful if swallowed. May cause irritation of eyes, nose, throat, or skin. Avoid contact with eyes, skin or clothing. In case of contact with eyes, flush with plenty of water. Consult a physician if irritation persists.

NOTICE

May cause staining on handler's apparel and porous surfaces.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with direction under normal conditions of use. Neither this warranty nor any other warranty of merchantability or fitness for a particular use, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.
