

# DESERT MICRO BLEND

GENERAL USE INFORMATION – READ ENTIRE LABEL BEFORE USING THIS PRODUCT

## GENERAL INFORMATION

DESERT MICRO BLEND is especially recommended to prevent and correct copper, iron, manganese and zinc deficiencies in desert-grown field, row, vegetable, fruit, tree, and vine. DESERT MICRO BLEND alone, with pesticides, or with other fertilizers, may be applied directly to the soil or to the foliage of growing crops. DESERT MICRO BLEND may be applied via ground sprayers (high-volume or low-volume), aircraft or fertigation systems.

## DIRECTIONS FOR USE

**CONSULT YOUR LOCAL FERTIZONA REPRESENTATIVE OR OTHER AGRICULTURAL SPECIALIST FOR SPECIFIC CROP RECOMMENDATIONS.**

Soil applications of DESERT MICRO BLEND are recommended with nitrogen fertilizer solutions. Thorough coverage and wetting are needed for optimum foliar spray results.

Actively growing plants with young leaves absorb foliarly applied DESERT MICRO BLEND most efficiently. Immediate post-irrigation or post-rainfall application give the best foliar uptake. Addition of urea (for example, 5 lbs. Lo-Bi Urea per 100 gals. of spray solution) will enhance foliar uptake of DESERT MICRO BLEND.

## COMPATIBILITY

DESERT MICRO BLEND is compatible with most pesticides and fertilizers. However, if the desired combination has not been previously used, a compatibility test is recommended.

**MIXING:** Shake, stir, or swirl contents before using. Always add this product to the spray tank before adding pesticides.

## SOIL APPLICATIONS FOR ALL CROPS\*

Soil Fertility Maintenance . . . . . 1-3 qts. per acre  
Mild Deficiency . . . . . 2-6 qts. per acre  
Severe Deficiency . . . . . 1-3 gals. per acre

\*The lower rates are for field, row and vegetable crops. The higher rates are for fruit, tree, vine, ornamental and turf crops.

**FERTIGATION:** Apply the recommended amount of product in split applications one to two weeks apart throughout the growing season.

## FOLIAR APPLICATIONS FOR ALL CROPS

Applications should be separated by a minimum of 7-14 days. AVOID foliar applications of this product when plants are under moisture stress. AVOID foliar applications to deciduous tree crops during bloom.

**DILUTE APPLICATIONS:** For rates higher than 2 qts. per acre, split applications of 2 qts. or less are preferred to minimize phytotoxicity.

**CONCENTRATE APPLICATIONS:** Use up to 2 qts. of DESERT MICRO BLEND in a minimum of 25 gals. of water per acre.

**AERIAL APPLICATIONS:** Up to 1 qt. of DESERT MICRO BLEND per 5 gals. of spray may be used, but more dilute solutions will improve coverage and results.

**NET CONTENTS: 260 gals. (984.2 L)**

WEIGHT PER GALLON: 10.2 LBS. AT 68° F
